Re: Cleaning Advanced Systems Inc

Dear Ms. Powledge:

I am writing to recommend the services of Cleaning Advances Systems, Inc. As a facility manager, CAS makes my job so much easier!

Cleaning Advanced Systems, Inc. have taken care of our building since December 2008 when we first moved to this location. I say they have taken care of our property rather than cleaning it for that is what they do, they take care of us.

Rudy Pleytez, Sr, Rudy Jr., Marvin and all the employees have always shown great concern for the upkeep of our building. We have at times requested their assistance on special projects beyond our contract terms and they have willingly and reasonably provided their assistance.

I am confident that CAS will provide the same complete and careful services to your company.

Regards,

Carolyn Nix
